THE BEAUTY OF WAVY SURFACES AND THE UNEXPECTED

LA BEAUTÉ DES
SURFACES ONDULÉES
ET DE L'INATTENDU.

A BELEZA DAS
SUPERFÍCIES FLUÍDAS E
DO INESPERADO.

The **MAGMMA collection** is a celebration of forms found in nature — the beauty of wavy surfaces and natural asymmetry. Each piece pays tribute to the strength and harmony of the natural world, inspired by the organic shapes that arise from its very essence. It highlights the fluid contours sculpted over time by nature itself: volcanic rocks, desert dunes, wind-shaped trees, and the ever-changing waves of the sea.

Featuring a wide range of sanitary ware, the **MAGMMA collection** invites you to rediscover the deep connection between humanity and nature, evoking the planet's vital

La collection MAGMMA célèbre les formes que l'on trouve dans la nature — la beauté des surfaces ondulées et de l'asymétrie naturelle. Chaque pièce rend hommage à la force et à l'harmonie du monde naturel, en s'inspirant des lignes organiques issues de son essence même. Elle met en lumière les contours fluides sculptés par le temps : roches volcaniques, dunes désertiques, arbres façonnés par le vent, vagues en perpétuel mouvement.

Proposant une large gamme d'éléments sanitaires, la **collection MAGMMA** vous invite à redécouvrir le lien profond entre l'humanité et la nature, en évoquant l'essence vitale de la planète. Chaque contact vous entraîne dans un voyage sensoriel à travers l'environnement qui l'a inspirée,

A **coleção MAGMMA** é uma celebração das formas recolhidas na natureza, **na beleza das superfícies fluidas e da assimetria natural**. Cada peça é uma homenagem à força e à harmonia do mundo natural, inspirando-se nas formas orgânicas que emergem da sua essência mais profunda. Destacam-se os relevos esculpidos ao longo do tempo pela própria natureza: rochas vulcânicas, dunas do deserto, árvores moldadas pelo vento e as ondas em constante mutação do mar.

MAGMMA com a sua vasta gama de louça sanitária, convida à redescoberta da profunda ligação entre o ser humano e a natureza, evocando a essência vital do planeta. Cada toque transporta-nos numa viagem sensorial ao ambiente

essence. Each touch takes you on a sensory journey into the environment that inspired it, capturing the richness of tactile textures and the flowing elegance of organic forms.

The composition of the paste includes fired ceramic waste, with controlled granulometry to ensure the dimensional stability of the pieces. All pieces are coated with antibacterial glass made from 100% recycled material. The organic shapes adopted allow for a higher yield in the production process by intentionally incorporating the irregularity and naturalness that characterize them. This significantly contributes to waste reduction.

capturant la richesse des textures tactiles et l'élégance fluide des formes organiques.

La composition de la pâte comprend de déchets céramiques cuits (caco), avec une granulométrie contrôlée afin d'assurer la stabilité dimensionnelle des pièces. Toutes les pièces sont revêtues de verre antibactérien issu de matériaux 100 % recyclés.

Les formes organiques adoptées permettent un meilleur rendement dans le processus de production, en intégrant intentionnellement l'irrégularité et la naturalité qui les caractérisent. Cela contribue de manière significative à la réduction des déchets.

que lhe deu origem, captando a riqueza das texturas táteis e a elegância fluida das formas orgânicas.

A composição da pasta inclui resíduos cerâmicos cozidos (caco), com granulometria controlada para assegurar a estabilidade dimensional das peças. Todas as peças são revestidas com vidro antibacteriano proveniente de material 100% reciclado.

As formas orgânicas adotadas favorecem uma maior taxa de aproveitamento no processo produtivo, ao incorporarem de forma intencional a irregularidade e naturalidade que as caracterizam. O que contribui para a redução significativa do desperdício.

BUILT FOR
LONGEVITY

DESIGNED
FOR TRUST

OUR COMMITMENT TO SUSTAINABILITY IS REFLECTED
IN THE SOLUTIONS WE OFFER

We believe that true progress is only achieved when there is a balance between economic performance, environmental responsibility and social commitment, so our mission is to promote the creation of economic, social and environmental value by prioritising innovation and sustainability in the solutions we sell.

In this context, we constantly seek to innovate and expand the business in a sustainable way, through the implementation of practices that minimise our environmental impact, the promotion of an inclusive and diverse work environment and the adoption of a governance model based on transparency and ethics.

This holistic approach allows us to thrive in the marketplace as well as contribute positively to society and the environment, ensuring a sustainable future for all.

Notre engagement en faveur du développement durable se reflète dans les solutions que nous proposons.

Nous estimons que le véritable progrès n'est atteint que lorsqu'il existe un équilibre entre la performance économique, la responsabilité environnementale et l'engagement social, raison pour laquelle notre mission est de promouvoir la création de valeur économique, sociale et environnementale, en donnant la priorité à l'innovation et à la durabilité dans les solutions que nous commercialisons.

Dans ce contexte, nous cherchons constamment à innover et à développer nos activités de manière durable, grâce à la mise en œuvre de pratiques qui minimisent notre impact sur l'environnement, en promouvant un environnement de travail inclusif et diversifié et en adoptant un modèle de gouvernance fondé sur la transparence et l'éthique.

Cette approche holistique nous permet de prospérer sur le marché, mais également d'apporter une contribution positive à la société et à l'environnement, garantissant ainsi un avenir durable pour tous.

O nosso compromisso com a sustentabilidade reflete-se nas soluções que oferecemos.

Acreditamos que o verdadeiro progresso só é alcançado quando há um equilíbrio entre desempenho económico, responsabilidade ambiental e compromisso social, pelo que assumimos como missão promover a criação de valor económico, social e ambiental, priorizando a inovação e sustentabilidade nas soluções que comercializamos.

Neste contexto, procuramos constantemente inovar e expandir o negócio de forma sustentável, através da implementação de práticas que minimizem o nosso impacto ambiental, da promoção de um ambiente de trabalho inclusivo e diversificado e da adoção de um modelo de governação assente na transparência e na ética.

Esta abordagem holística permite-nos prosperar no mercado, bem como contribuir positivamente para a sociedade e para o ambiente, garantindo um futuro sustentável para todos.
