BY FLOWCO

Products inspired
by ecological
sustainability

It all started with a “How?”

How can we reuse wasted materials and create value through design?

Sports&Floorings

Decor&Coverings

Who are we?

FLOWCO® is a company that focuses its efforts on solving the waste problem from the very beginning of the value chain. As an eco-product design centre, **FLOWCO** creates sustainable and aesthetic solutions for the visions of architects and interior designers, using waste as a raw material.

Mission

Can a recycled tile be sexy?

“Because sustainability should look good too.”

Problem and Solution

GOMA Sports and Decor range provide 92% recycled Floorings and Coverings that comes from the tyre and shoe sole recycling industry. This way, we are preventing end of life tyres and shoes soles from ending up in a landfill and contributing to the circular economy.

1 m²* = 1,35 tyres
1000 m²* = 1350 tyres
(*compared to a 15 mm tile)

Benefits

Our materials provide ideal benefits for comfort and unique environments.

GOMA took it to the next level by allowing you to extend your brand identity as well.

Ideal for places where comfort is a priority while thermal and sound features are important like restaurants, hotels, offices and stores.

• THERMAL COMFORT

• RECYCLED MATERIAL

• ACOUSTIC QUALITY

• EASY TO INSTALL

• FLEXIBILITY

• PATTERNS, COLOURS
AND CUSTOMIZATION

• PINS & NAILS

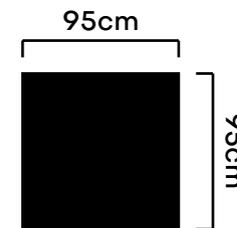

Skin

95x95cm

Where sustainability meets style

It stands out for its continuity effect with technical capacity to absorb impact and sound, while providing thermal comfort in a modern way.

Our Skin line allows flexibility and handling, which makes it ideal to cover walls, non-sport related floors, sillings, woodwork and objects.

Mosaic

Different formats and sizes available

Tiles with attitude and a touch of Portuguese magic.

Inspired by Portuguese world known tiles, Flowco created this unique Mosaic line.

You can combine tradition, style and eco-friendly materials with different formats and colours, allowing you to create Infinite patterns.

The next step for customization and identity extension.

SQUARE EDGES

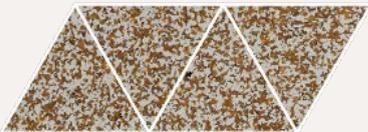

Mosaic formats

This is our playground for Designers and Architects.

Here you can combine several formats and colours, from our “standard” to “customized ones”.
Your criativity is the limit.
