Waste Transformation

R&D

Product Design

Production

It all started with a “How?”

# How can we reuse wasted materials and create value through design?

Sports&Floorings

Decor&Coverings

## Who are we?

**FLOWCO®** is a company that focuses its efforts on solving the waste problem from the very beginning of the value chain. As an eco-product design centre, **FLOWCO** creates sustainable and aesthetic solutions for the visions of architects and interior designers, using waste as a raw material.

## Mission

### **Can a recycled tile be sexy?**

*“Because sustainability should look good too.”*

**goma**<sup>®</sup>  
BY FLOWCO

## Problem and Solution

**GOMA Sports and Decor range provide 92% recycled Floorings and Coverings that comes from the tyre and shoe sole recycling industry. This way, we are preventing end of life tyres and shoes soles from ending up in a landfill and contributing to the circular economy.**

**1 m<sup>2</sup>\* = 1,35 tyres**  
**1000 m<sup>2</sup>\* = 1350 tyres**  
(\*compared to a 15 mm tile)

# Benefits

Our materials provide ideal benefits for sports practice and comfort environments. **GOMA** took it to the next level by allowing you to extend your brand identity as well.

**goma**<sup>®</sup>  
SPORTS

• ANTI-SLIP

• IMPACT ABSORTION

• INJURY PREVENTION

• NOISE REDUCTION

• ROBUST AND DURABLE

# Classic

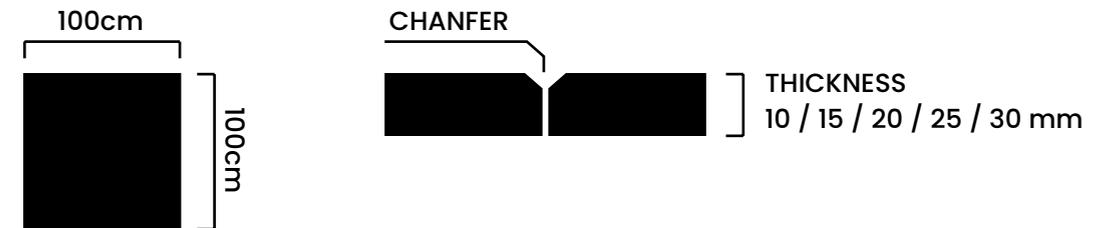

## 100x100cm

### Best price-quality ratio

In it's most conservative manifestation, it guarantees what is expected. However, when we apply innovative materials to it, we achieve differentiation.

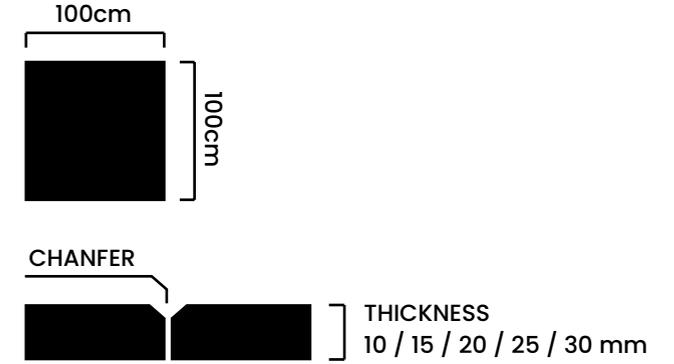

It's the comfort of betting on what you know with a unique GOMA touch and quality.

With thickness range from 10 to 30mm and 7 different colours, GOMA Classic gives you the flexibility you need.

# Tatamis

100x100cm\*

\*With 4cm thickness weighing 3 kilos.

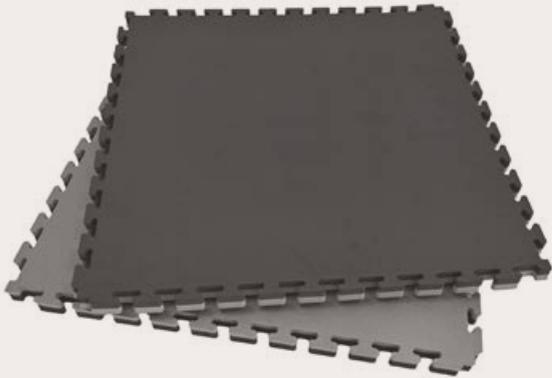

**Durable EVA mat ideal for martial arts, gym and fitness.**

4cm Mat made of high-density, impact-resistant EVA. Perfect for martial arts, gyms, or training areas. Non-slip pattern, easy to assemble and clean. Available in 5 colours: Black, Grey, Blue, Yellow and Red.

# Tatamis

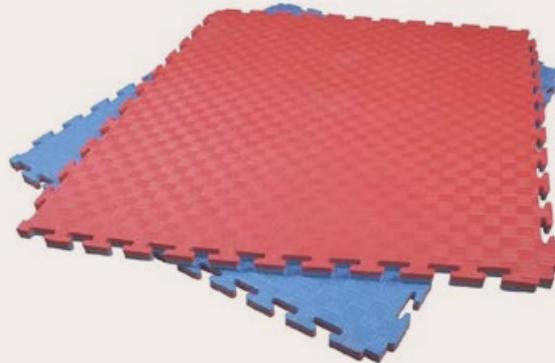

## 100x100cm

**Black and Grey Eva Tatami 4cm**

The **4 cm Black and Gray Tatami** is a high-quality EVA mat, ideal for various sports: martial arts, cross-training, high-impact yoga, or home gym. The 4 cm thickness provides excellent shock absorption, protecting joints and reducing the risk of injury. **Also available in 2,5cm.**

**Red and Blue Eva Tatami 4cm**

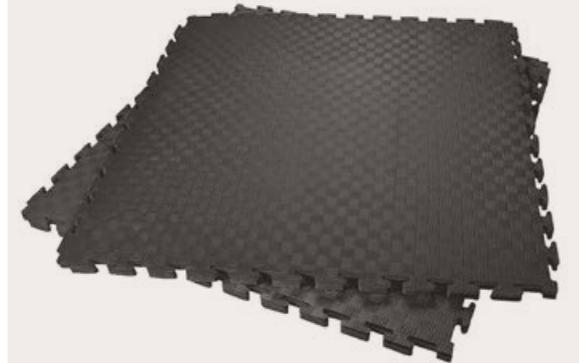

The **AZAFIT® Blue and Red 4 cm Tatami** is an EVA training floor with reinforced thickness that offers superior cushioning. Ideal for martial arts (judo, MMA, jiu-jitsu), functional gyms, or combat spaces where falls and projections are common. **Also available in 2,5cm.**

**Yellow and Black Eva Tatami 2,5cm**

The **AZAFIT® Yellow and Black 2.5 cm Tatami** is an EVA training floor designed for comfort, protection, and durability. Measuring 2.5 cm thick and **measuring 100 x 100 cm**, it combines a vibrant yellow and black look with a robust structure to withstand demanding workouts.

**All Black Eva Tatami 2,5cm**

The **AZAFIT® Black Tatami 2.5 cm** is a high-density EVA training flooring, perfect for martial arts spaces, gyms, clubs, or home use. **Measuring 100 x 100 cm** and 2.5 cm thick, it weighs approximately 3 kg, offering an ideal balance of cushioning and stability.

# Flooring and Coverings application.

**Professional flooring and wall covering installation for a flawless, durable, and stylish finish.**

Transform your space with our premium flooring and wall covering installation services. We provide precise, professional application of sports floors, decorative wall panels, and custom coverings. Using high-quality materials and expert techniques, we ensure a flawless finish that enhances both aesthetics and functionality. Contact us today for a personalized estimate and elevate your space with confidence.
