AMORIM CORK FLOORING

Amorim Cork Flooring is part of *Corticeira Amorim*, the largest cork product company in the world. It is the market leader and contributes towards sustainability and innovation like no other player in the sector.

With origins going back to 1870, the company soon realised the infinite potential of this 100% natural material transforming it into the favored product of an informed society aware of the environmental consequences of its choices.

Born in 1978 and with a presence in more than 80 countries, *Amorim Cork Flooring* combines inspiration in nature's purest values, with cutting-edge technologies. The result is a range of top quality, versatile flooring with undeniable sustainability and comfort credentials.

Our unique coverings use innovative techniques to enhance cork's natural properties and the portfolio integrates various solutions, some of which have revolutionized the traditional concept of cork flooring.

From homes to hotels, restaurants to libraries, museums to offices, our products are suitable for any residential or commercial project looking for exceptional comfort and performance.

The respect for nature and our planet is present in all our actions: more than 60% of our product portfolio is climate positive.

We place nature as the starting point for a better future creating flooring solutions that ensure a higher quality of life while preserving and protecting the environment.

Every step leaves a mark and ours is climate positive.

Cork comfort benefits from nature, to your special space

Silence

Reduces the walking sound up to 53%.

Natural Thermal Insulation

Optimal floor temperature all year round.

Walking Comfort

Reduces body tensions and fatigue.

Impact Resistance

Highest shock absorbing performance.

Indoor Air Quality

Compliance with the strictest indoor air quality standards.

Every step leaves a mark and ours is Climate Positive

Environment

No trees are damaged or cut during harvesting

Regenerates itself after each extraction

Retains 5x more CO₂ from the atmosphere than other trees

Helps reduce global warming

Biodiversity hotspot

Economy

A sustainable economy

Rural areas economic engine
WWF estimates that more than 100,000 people are economically dependent of cork-related business activities.

Highest paid agricultural job
Cork harvesting is an activity that requires experience and high skills, to prevent damaging the tree during the process.

Social Impact

An invitation to live from the land

Crossing Generations
To be able to perform the harvesting takes several years of training.

Prevents Rural Desertification
Contributes to settle people in areas at risk of desertification.
